WELCOMES & FAREWELLS

• We welcome academic visitor **Assoc Prof. Yousaf Hayat** from the University of Agriculture in Pakistan who will be with CARM for the next 6 months from March to September, 2014.

• Academic visitor **Assoc Prof. Yonghong Hu** who was with CARM from January 1 to April 4, has returned home to the School of Statistics and Mathematics at the Central University of Finance and Economics in China.

Yonghong said:

“I like here. CARM is a very active group, and doing some very important and interesting things, not only doing some application of statistics method in resource, but also doing some research about statistics method. There are many publications recent years, especially some paper are published in top-level journal. UQ is very good!”

• You-Gan has welcomed a new addition to his family with the arrival of baby Zoe on April 1! Both baby and mother are doing very well and You-Gan would like to thank everyone for their generous gift.
PUBLICATIONS

NATURE Publication
In research published in Nature, CARM’s Associate Professor Anthony Richardson along with a team of 20 international researchers from Australia, Canada, Germany, Spain, UK and USA, revealed global maps showing how fast and in which direction local temperatures have shifted over the past 50 years.
