Undergraduate Mathematics Competition Asia-Pacific

10 October 2020

Eligibility: Undergraduate students at pre-registered universities located between New Zealand Standard Time and Indian Standard Time.

Entry: **Students** can enter **individually** or in **pairs**, with prizes for the top 10 individuals and the top 10 pairs.

The best **universities** will be determined based on the scores of their 3 best individuals and 2 best pairs, such that at most 4 of the students involved are of the same gender.

All participating universities also receive a university ranking, which is based on the scores of their top-performing individual students and pairs.

Format: Two three-hour exams on **Saturday 10 October 2020**, at times depending on the time-zone, to be held at universities.

Problems: Challenging problems using core undergraduate mathematics. Possibly one open problem in afternoon exam. Sample problems and previous exam questions can be found on the website.

Prizes: AU\$100,000 in total prize money, as well as corporate internships (see website for conditions).
