

## School of Mathematics and Physics

### Summer Industry Experience

What is involved for your organisation to participate in the **School of Mathematics and Physics Summer Industry Experience** program for 2016-17?

- Provide an opportunity for an intern to contribute to projects within your company.
- Six to eight weeks' placement (up to 4 weeks in December 2016; up to 4 weeks in January 2017) – UQ will handle contract and insurance coverage.
- Co-payment scholarship with UQ for students to receive \$300 per week.
- Students will present their internship experience at a UQ event (subject to industry consent/IP).
- **20** scholarships for SMP summer interns are available for 2016-17.

If your company is interested in participating, please confirm an available project with our coordinators. To discuss any aspect of the program, please contact:

- Dr Yoni Nazarathy ([y.nazarathy@uq.edu.au](mailto:y.nazarathy@uq.edu.au))
  - Associate Professor Tom Stace ([stace@physics.uq.edu.au](mailto:stace@physics.uq.edu.au))
  - Dr Thomas Taimre ([t.taimre@uq.edu.au](mailto:t.taimre@uq.edu.au))
- Or [smindustry@uq.edu.au](mailto:smindustry@uq.edu.au)

**before 30 September** with a description of the project and the desired skills required for the internship with your company.

We will advertise these internship opportunities to our students for application by 31 October. Companies will select their interns which, during the selection process, may involve attending an interview.

A standard UQ sponsorship agreement will be provided to finalise the terms of the arrangement.
